

Dr. Prabhjot Kaur
Gill Niwas, H.no. 63,
Guru Harkrishan Nagar, Opp. Khalsa Public School,
Mohani Park, Amritsar-143001, Punjab, India.

Date: 03.14.2023

Dear Dr. Kaur

I am pleased to offer you a postdoctoral fellow position in my laboratory at the Department of Microbiology, Biochemistry and Immunology, Morehouse School of Medicine; your new joining date is effective May 1st, 2023, and continuing through April 30th, 2024 at an annual salary of 48,500 USD.

You will be responsible for working on the interplay of social and molecular determinants in lung cancer disparity. Specifically, the proposed research will offer a chemokine-based patient stratification and chemokine as a target for therapies, establish immune-based strategies to reduce disparity, and evidence-based social interventions to potentiate anti-tumor immunity to reduce risk and improve survival of lung cancer (NSCLC) patients. You are expected to conduct active lab research on a semi-independent basis: Designing and conducting experiments, data collection, and analysis, bioinformatics data analysis, presenting research progress at national and international conferences and weekly lab meetings, developing new ideas that promote ongoing and future research, prepare and publish scientific manuscripts under my direction. In addition, you are expected to participate in other laboratory activities, including training and assisting graduate students working in the lab.

If you have any questions regarding your employment, please contact me.

Rajesh Singh, Ph.D.
Associate Professor
Department of Microbiology, Biochemistry, & Immunology
Morehouse School of Medicine
Hugh Gloster Room B-337
