TIME: 4:00 PM- 5:30 PM

**RAFFLES
UNIVERSITY**

**ORGANISED BY
SCHOOL OF LAW, RAFFLES UNIVERSITY**

ABOUT RAFFLES UNIVERSITY, NEEMRANA

Raffles University Neemrana, established by an Act of Rajasthan State Legislature, as per Section 2(f) of UGC Act 1956, is a multi-disciplinary university providing world- class education through its various schools namely:

- School of Law
- Alabbar School of Management
- School of Engineering & Technology School of Basic & Applied Sciences
- School of Agricultural Sciences
- School of Pharmacy
- School of Humanities & Social Sciences

Raffles University situated in NCR at Neemrana, on Delhi-Jaipur National Highway No. 48, is just 90 km away from Delhi International Airport and is also connected by a six-lane expressway and by the railway line at Rewari Junction. The distance from Jaipur is 140 Kms.

The state-of-the-art infrastructure with all modern facilities, built on a sprawling 50 acres of land, is set in an unpolluted serene environment in the lap of Aravalli hills. The University is based on the “GURUKULA” concept whereby the students move away from the rough and tumble of stressful existence to the quieter environment of the University in Neemrana. This ambiance, enables a strong bond between teacher and pupil ensuring thereby greater attention to instruction as well as education free of distraction and impediments. And yet, it is not as if the Gurukul is insular in nature.

Students are encouraged to explore and expand the frontiers of their knowledge through broad Internet and interactions. Raffles University provides an environment for open discussion between the faculty and students which is designed to ignite the urge to explore and learn beyond boundaries. The confluence of minds and cultures from all over the world provides the ambiance for shaping students into global citizens and leaders. Diversity and flexibility of options of courses to choose from are aimed at enabling students to pursue studies most suited to their intellect and talent. This enables the students to discover, nurture and expand their talents, skills, and interests so that they emerge as leaders and path breakers wherever they go.

ABOUT SCHOOL OF LAW

Constant Guidance & Opportunity to Students on Campus to learn nitty-gritties of procedural steps of litigation right from the lowest court to the highest and to discuss contemporary legal issues under the guidance of Chief Patron Dr. Justice Meena V Gomber, Former Judge of Rajasthan High Court. Adjudged as "Best Innovative University for Law of the year, India" awarded in March 2021.

Internship opportunities with Hon'ble Judges of Supreme Court, Delhi High Court and Rajasthan High Court. Students and Teachers Exchange programs with Lisbon University, Hampshire University and opportunity for internship in ITLOS (Hamburg), Germany. Only Private University to offer LLM in Maritime Law, Internships and Certificate Courses in Maritime Law in collaboration with National Maritime Foundation, Ministry of Defence (GOI).

Students have unique opportunity to work as Para Legal Volunteers under the banner of Rajasthan High Court Legal Services Authority / Distt. Legal Services Authority - giving practical exposure of spreading Legal Literacy, Legal Awareness & Community Services.

Yearly two Moot Court Competitions (National & International) on contemporary issues including Artificial Intelligence & Law - Law & Technology, Family Law International Perspective are organised by Raffles University.

Many graduates from the Raffles University, are working with big corporate MNC's and are also Judicial Officers in different parts of India. Not only this but students of Raffles University are also practicing as young promising advocates all over the globe.

ABOUT THE FACULTY DEVELOPMENT PROGRAM

“ Educate and raise the masses, and thus alone a nation is possible ”. -Swami Vivekananda

Life is never static. India has had a difficult road to adapting to the enormous changes by reshaping the educational system and the way people behave. It is acceptable to say that a multidimensional paradigm shift has occurred. As mentioned earlier, Higher Education was seen as an elite privilege reserved for the wealthy, ambitious, and upwardly mobile. It is not wrong to say that having a quality education is important for the smooth functioning of our lives, and hence education can't be impacted. It must be up-to-date with current developments and supported by reliable research techniques. These two pillars serve as the foundation of the Faculty Development Programme, which was thoughtfully created. It involves a carefully considered blend of subject and research methodology sessions. The subject matter sessions are carefully chosen, taking into account the present state of education, like the **National Education Policy 2020, etc.** These educational perspectives are designed to benefit not only faculties, academicians, and researchers but also general students.

SUB- THEMES OF THE FDP

- Comparative Mechanism of Teaching in Developed Countries: Special emphasise on Higher Education
- Application of Research Methodology in Higher Education
- Blended Techniques of Teaching
- Teaching and Learning of Social Issues: Gender Justice
- Challenges of Constitutional Law and Its Dimensional Issues
- Applicational Issues of NEP-2022
- Tools and Techniques of Research Methodology

OBJECTIVES OF THE FACULTY DEVELOPMENT PROGRAM

“Tell me and I Forget, Teach me and I may remember, involve me and I Learn” . -Benjamin Franklin.

The Faculty Development Programme intends to improve the overall performance of faculty members in academics, research, and administration. Bearing this overall aim in mind, the following are the objectives of the FDP:

- To assist participants in upgrading their knowledge and abilities.
- To provide a unique opportunity for learning about the latest developments in varied areas.
- To keep participants inspired and informed about various teaching strategies used by several other faculties around the nation.
- To impart training on use and significance of innovative research tools in teaching.
- To make it easier to comprehend new trends in higher education by providing more clarity and insight.
- To highlight the wide array of methodologies in research methods and data analytics that are available to academics, practitioners, and researchers from transdisciplinary fields.
