#### **Long Questions 10 Marks**

- 1. Define and Classify Adverse drug reaction. Explain in detail the mechanism of type- A ADR with example
- 2. Define hospital pharmacy and explain its functions in detail
- 3. Write a note on location, layout, and staff requirements in hospital pharmacy
- 4. Define hospitals and classify it with examples
- 5. Explain the methods used for detection of adverse drug reactions
- 6. Describe the organizational structure of hospital
- 7. Define hospital pharmacy. Write in detail the responsibilities of hospital pharmacist
- 8. Define ADR. Write the various causality assessment scales used in ADR monitoring
- 9. Define hospital. Write the functions of a hospital
- 10. Write a short note on history of hospitals. Give the objectives and function of it

#### **UNIT-2**

#### **Short Questions 2 Marks**

- 1. What do you mean by term "In-Patient"
- 2. Enlist types of free floor stock system
- 3. Drug basket system
- 4. What is the minimum qualification required to start a community pharmacy?
- 5. List any four drugs for TDM monitoring
- 6. Advantages of Unit dose dispensing system
- 7. Individual prescription system
- 8. Define medication adherence
- 9. What is medication non-adherence?
- 10. Role of a community Pharmacist in women healthcare
- 11. Write any two functions of a community pharmacist.

#### **Short Questions 5 Marks**

- 1. Write a note on community Pharmacy
- 2. Write the need for hospital formulary
- 3. Discuss the applications of TDM
- 4. Enumerate the causes for medication non-adherence
- 5. What are the advantages and disadvantages of Individual prescription order system
- 6. Write the objectives of hospital formulary
- 7. Write the advantages of Unit dose dispensing system
- 8. Enlist the types of records needs to be maintained in a community Pharmacy

|                            | PREREQUISITES                 |                                |  |  |  |
| Course: Social and Preven  | tive Pharmacy                 | Number of Prescribed Hours: 45 |  |  |  |
| Academic Year: 2021-22     | Programme: B.Pharmacy         | Number of Flescribed Hours. 43 |  |  |  |
| Name of Faculty: Dr. Manis | h gunian                      | Year/Semester: 4 Year VIII Sem |  |  |  |

- 15. Give some examples of tertiary sources for drug information
- 16. Enlist the qualities of a patient counsellor
- 17. Write the parts of a prescription
- 18. What is Prescribed medication order
- 19. Define patient counseling
- 20. What are communication skills
- 21. Write the members of P& T committee
- 22. What is mean by drug information services
- 23. What are the benefits of Patient counseling
- 24. Differentiate between generic and brand name
- 25. Write the various patient counseling aids
- 26. Define drug information bulletin
- 27. Give two examples of primary sources for drug information

#### **Short Questions 5 Marks**

- 1. Define drug information. Write the source of drug information
- 2. Give in detail the Interpretation of Prescribed Medication Order
- 3. Write the organisation of Pharmacy and Therapeutic Committee
- 4. Explain in detail about drug information bulletin
- 5. Write the sources of drug information services
- 6. Role of Pharmacist in P&T committee
- 7. Writ the steps involved in answering a drug query
- 8. Enumerate the counseling points for Asthma
- 9. Write the functions of P&T committee
- 10. What are the communication skills required for a better patient counseling?

#### **Long Questions 10 Marks**

- 1. Describe the purpose and functions of PTC and how PTC ensures drug safety in hospital
- 2. Define patient counseling. Explain in detail steps involved in patient counseling.
- 3. Define drug information. Write the steps involved in answering a drug information query
- 4. What are the policies of Pharmacy and Therapeutic Committee?
- 5. What is the role of PTC in developing "Emergency Drug List"
- 6. Define Prescribed Medication Order and write a note on Legal requirements and Interpretation of Prescribed Medication Order
- 7. Write the organizational structure and functions of P&T committee
- 8. Enlist the various counseling points to be provided for a Diabetes and Hypertension patient
- 9. Write a detailed note on Drug Information Services/Centre

#### **UNIT-4**

#### **Short Answers 2 Marks**

- 1. What is the need of poison information centre in a hospital?
- 2. Importance of medication history
- 3. Define Pharmacist intervention
- 4. Define clinical Pharmacy
- Define budget

| Raffles University, Neemrana,                |                          |                                |  |  |  |
|--|--------------------------|--------------------------------|--|--|--|
|  | Alwar, Rajasthan- 301705 |                                |  |  |  |
|  | PREREQUISITES            |                                |  |  |  |
| Course: Social and Preventive                | Pharmacy                 | Number of Prescribed Hours: 45 |  |  |  |
| Academic Year: 2021-22 Programme: B.Pharmacy |                          | Number of Frescribed Hours. 43 |  |  |  |
| Name of Faculty: Dr. Manish of               | unian                    | Year/Semester: 4 Year VIII Sem |  |  |  |

- 6. What is ward round participation
- 7. Define clinical review
- 8. Give examples for OTC analgesics
- 9. What is an administration error?
- 10. Define Drug therapy monitoring
- 11. Define Pharmaceutical care
- 12. What are the risks associate with OTC drugs
- 13. Importance of medication history review
- 14. Write the importance of medication history review
- 15. Significance of Pharmacist intervention
- 16. Give four examples of OTC drugs

#### **Short Questions 5 Marks**

- 1. Give the advantages and disadvantages of OTC drugs
- 2. Write the responsibilities of clinical pharmacist
- 3. Give the importance of ward round participation
- 4. Write the significance of Drug Therapy Monitoring
- 5. What are the Benefits and Risks associated with OTC drug use
- 6. Write a note on Pharmaceutical care
- 7. Scope of clinical Pharmacy in India
- 8. Discuss the primary aims of Clinical Review
- 9. Write the importance of ward round participation
- 10. Discuss in brief about OTC medicines
- 11. Write a note on Medication chart review
- 12. What are the factors to be considered before dispensing OTC drugs?
- 13. Scope of clinical Pharmacy in India
- 14. Define Pharmacist intervention and its importance in patient safety
- 15. Write a note on rational use of OTC drugs
- 16. Define medication error and add a note on importance of monitoring it
- 17. Explain the concept and scope of clinical Pharmacy
- 18. Write a note on misuse and abuse of OTC drugs
- 19. Enumerate the importance of medication history review
- 20. Roles and responsibilities of clinical Pharmacist
- 21. Explain in detail about drug therapy monitoring
- 22. What are the legal requirements for OTC sales
- 23. Classify ward round participation. Add a note on its significance
- 24. Discuss on rational use of OTC medicines
- 25. Write the importance of clinical review
- 26. What are the risks and benefits of dispensing OTC drugs

#### **UNIT V**

#### **Short Questions 2 Marks**

1. Give the normal range of a. Hb, b. clotting time

## Raffles University, Neemrana, Alwar, Rajasthan- 301705

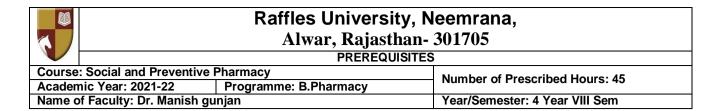

#### **PREREQUISITES**

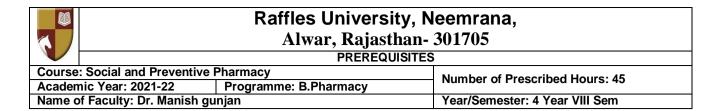

| Course: Social and Preventive | Pharmacy                       | Number of Prescribed Hours: 45 |  |  |  |
|-------------------------------|--------------------------------|--------------------------------|--|--|--|
| Academic Year: 2021-22        | Programme: B.Pharmacy          | Number of Frescribed Hours. 45 |  |  |  |
| Name of Faculty: Dr. Manish g | Year/Semester: 4 Year VIII Sem |                                |  |  |  |

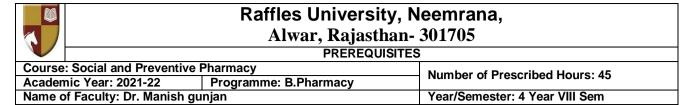

- 2. Enlist the types of inventory control
- 3. Give the normal range of : RBC, ESR
- 4. What do you mean by Investigational drugs?
- 5. Enlist the factors affecting Inventory Control
- 6. Write the formula to calculate EOQ
- 7. Write the normal values of BUN, Creatinine
- 8. What is investigational new drug
- 9. Write the normal values of a. PCV, b. MCV
- 10. Write the significance of ESR values
- 11. Write the disadvantages of VED analysis
- 12. Significance of presence of protein and glucose in urine
- 13. Role of pharmacist in investigational drug use
- 14. Write the objectives of inventory control
- 15. Write the significance of urine culture test
- 16. Define procurement and stocking of drugs
- 17. Define Re-order quantity level
- 18. What is an investigational drug?
- 19. Normal values of a. potassium, b. sodium
- 20. Write the methods used for analysis of drug expenditure
- 21. Normal values of a. Platelets, b.WBC
- 22. Write the Various phases of clinical trials
- 23. Give the normal range of : a. creatinine, b.BUN
- 24. What do you mean by Investigational drugs?
- 25. Define purchase order
- 26. Define drug store
- 27. What is the formula to calculate EOQ
- 28. Write the significance of platelets and ESR

#### **Short Questions 5 Marks**

- 1. Discuss the hematology parameters and its interpretation
- 2. Write a note on ABC analysis with its advantages and disadvantages
- 3. Write a short note on types of materials stocked in drug store
- 4. Write a short note on VED analysis
- 5. Write the various abnormal constituents of urine and the diagnostic tests of it
- 6. Give the normal range and significance of the following: a. RBC, b. ESR, c. PCV, d. Ferritin, e. Thrombocytes
- 7. Write the signifiance of blood chemistry values
- 8. Define Purchase. What are the various types of purchasing
- 9. Define Inventory control. Classify it and explain in detail about any one method.
- 10. Discuss in detail the procurement and purchasing of drugs

#### **Course Outcome Mapping with Programme Outcomes**

| CO's/PO's | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 |
|-----------|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|------|
| CO1       | M   | M   | S   |     | L   | M   | M   | L   |     | M    | S    |
| CO2       | M   | M   | S   | S   | L   | M   | M   | L   |     | M    | S    |
| CO3       | M   | M   | S   | S   | L   | M   | M   | L   |     | M    | S    |
| CO4       | M   | M   | S   | S   | L   | M   | M   | L   |     | M    | S    |
| CO5       | M   | M   | S   | S   | L   | M   | M   | L   |     | M    | S    |

#### **QUESTION BANK**

- 1. Write increasing order of priority of functional groups
- 2. Classify the functional groups
- 3. Explain in details about the isomerism?
- 4. Define and explain on structural isomerism with suitable examples?
- 5. Describe and write on hybridization, halogenation of alkanes
- 6. Explain on hybridization, halogenation of alkenes
- 7. Elaborate in about stability of alkenes
- 8. Write about reaction, mechanism kinetics, Factors effecting of E2 Reaction?
- 9. Write about reaction, mechanism kinetics, Factors effecting of E1 Reaction?
- 10. Write about reaction, mechanism of Markownikoff's reaction?
- 11. Write about reaction, mechanism of anti Markownikoff's reaction?
- 12. Write a note on Stability of conjugated dienes?
- 13. Write a note on free radical addition reactions of conjugated dienes?
- 14. Write about allylic rearrangement in conjugated dienes?
- 15. Write a note kinetics, order of reactivity of stereochemistry and rearrangement factors affecting alkyl halides in SN<sup>2</sup> reactions?
- 16. Write a note kinetics, order of reactivity of stereochemistry and factors affecting alkyl halides in SN<sup>1</sup> reactions?

# Raffles University, Neemrana, Alwar, Rajasthan- 301705 PREREQUISITES Course: Social and Preventive Pharmacy Academic Year: 2021-22 Programme: B.Pharmacy Name of Faculty: Dr. Manish gunjan Year/Semester: 4 Year VIII Sem

- 17. Describe Structure and uses of ethylchloride, Chloroform, trichloroethylene, tetrachloroethylene?
- 18. Explain structure and uses of dichloromethane, tetrachloromethane and iodoform
- 19. Write a note on Qualitative tests of alcohols?
- 20. Write a about Structure and uses of Ethyl alcohol, Methyl alcohol, chlorobutanol, Cetosteryl alcohol,
- 21. Write a about Structure and uses of Benzyl alcohol, Glycerol, Propylene glycol?
- 22. Classify the carbonyl compounds?
- 23. Descibe the nomenclature ans structure of carbonyl compounds?
- 24. Write a note in Nucleophilic addition and mechanism of carbonyl compounds?
- 25. Describe reaction and mechanism involved in aldol condensation,
- 26. Describe reaction and mechanism involved in Crossed Aldol condensation,
- 27. Describe reaction and mechanism involved in Cannizzaro reaction,
- 28. Describe reaction and mechanism involved in Crossed Cannizzaro reaction?
- 29. Write a note on reaction and mechanism involved in Benzoin condensation, Perkin
- 30. Condensation?
- 31. write a note on qualitative tests for carbonyl compounds?
- 32. Write a about Structure and uses of Formaldehyde, Paraldehyde, Acetone, Chloral hydrate?
- 33. Write a about Structure and uses of Hexamine, Benzaldehyde, Vanilin, Cinnamaldehyde?

#### PROJECTS (To be given to group of students)

- 1. Practice the IUPAC Nomenclatures on the Organic compounds?
- 2. Demonstrate the models for the structural models using the Molecular models
- 3. Perform the synthesis of organic molecules using the  $SN^1$  and  $SN^2$  reactions?
- 4. Perform the synthesis of organic molecules using the elimination reactions?
- 5. Perform the synthesis of organic molecules using the nucleophilic addition reactions?
- 6. Perform the synthesis of organic molecules using the dehydration Alcohols?
- 7. Complete a MOOC certification program on Organic synthesis in NPTEL, Coursera and Udemy
